KEITH BAIN ON MOVEMENT

A legacy is put to print and you can be part of it!

REMEMBER KEITH? For nearly four decades, Keith Bain influenced, directly and indirectly, the development of every performer and theatre trainer in Australia. Joining NIDA from its beginnings as a teacher and choreographer, he joined the full-time staff from 1977 came to define the pedagogy of theatre movement and exemplify what former NIDA Director Aubrey Mellor once called "Australia's only true 'master'".

With a grant from the Australia Council for the Arts in the mid 1990's, Keith began to note down his own personal story and professional philosophy. His book *Keith Bain on Movement* is a poignant three-part account of his exhaustive research into human action and communication. It is a heartfelt and moving journey through his early dance career and the pioneering days of finding a 'truly

Australian theatre' (Strictly Keith); on into the 'classroom' (What is Movement and Why Study It?), and ends with a master class from the master himself (Fundamental Qualities of Movement). For those who have known the man personally, *Keith Bain on Movement* will refresh you, remind you why you got into theatre in the first place. For the new generation of Australian artists, this book is a must-read, a guide towards a way of 'seeing' and discovering the joy of everything that concerns theatre expression. *Keith Bain on Movement* is a comprehensive legacy from the author himself. This polished production by Currency House, with a collection of never-before-seen photographs and a foreword by Cate Blanchett, will be launched at the Sydney Opera House before Christmas.
